Attachment A
Xspedius Communications Customer Proprietary Network Information Rule
Compliance

Xspedius Communications has established policies and procedures to satisfy compliance with the Federal Communications Commission's ("Commission") rules pertaining to customer proprietary network information ("CPNI") set forth in sections 64.2001-64.2009 of the Commission's rules, 47 C.F.R. §§ 64.2001-64.2009, and section 222 of the Communications Act of 1934, as amended (the "Act").

Xspedius Communications is a facilities-based competitive local exchange carrier offering local, long distance, and integrated communications services in 20 states and the District of Columbia. Xspedius offers service across the South and Southwestern United States to small and medium-sized business customers. Xspedius relies on its direct sales force to market its products to its customers.

Xspedius is in compliance with the Commission's CPNI Rules. Xspedius's Regulatory department has provided guidance to the Company's Vice President of Marketing and other personnel as to the detailed meaning of the CPNI Rules. Xspedius Marketing controls employee access to CPNI and controls all Xspedius Marketing activities. Xspedius Regulatory department has responded to inquiries from Xspedius Marketing, including detailed questions as to how CPNI could be used to market Xspedius products. However, Xspedius Marketing did not undertake any marketing campaigns in 2005 that entailed the use of CPNI, and decided not to use, disclose or permit access to CPNI for the purpose of providing or marketing services. Xspedius does not market or otherwise sell CPNI information to any third party.
